PROFILE

Web Developer with 2+ years of experience in building responsive and scalable web applications using React.js and modern front-end technologies. Strong experience in JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, with hands-on experience in WordPress and PHP. Skilled in converting Figma designs into pixel-perfect, reusable UI components, while focusing on performance optimization, accessibility, and cross-browser compatibility. Experienced in using Git and working in Agile environments, collaborating with cross-functional teams to deliver high-quality web solutions. Looking to grow and contribute to impactful projects.

TECHNICAL SKILLS

Frontend Technologies: React.js, Redux, JavaScript (ES6+), HTML5, CSS3
UI Development: Tailwind CSS, Sass, Bootstrap
Database: MySQL
CMS Development: WordPress, PHP
Tools: Git, GitHub , Figma
Other Skills: Form Handling, Component-Based Architecture, GSAP

EXPERIENCE

UNBOUND IA *Oct 2024 - Present*
Jr. Web Developer

- Built responsive web apps using React.js, JavaScript, Tailwind CSS, and Bootstrap with a focus on clean and mobile-friendly layouts
- Converted Figma designs into reusable and pixel-perfect UI components
- Integrated REST APIs and handled dynamic data in dashboard applications
- Managed application state using React Hooks, Context API, and Redux for better data flow handling
- Fixed UI bugs, improved performance, and ensured cross-browser compatibility for smooth user experience
- Worked with Git and GitHub for version control, code management, and team collaboration
- Developed and maintained WordPress websites with theme customization using child themes and responsive layouts
- Worked with WordPress hooks, WP Loop, custom post types, taxonomies, and shortcodes for website customization
- Built and managed website pages using Elementor and WPBakery based on design requirements
- Handled website content updates and implemented new changes based on business requirements
- Worked with PHP, HTML, CSS, and JavaScript to customize WordPress functionality and improve responsiveness

Project - CMS Dashboard Platform (*Ongoing*)
React.js, JavaScript, Tailwind CSS, SCSS, HTML5, REST APIs

- Developing responsive dashboard interfaces for managing blogs, posts, and news content
- Building reusable and scalable UI components using React.js and Tailwind CSS
- Implementing role-based UI flows for Admin and Editor access
- Integrating REST APIs for displaying and managing dynamic content
